

The RSH Foundation for Clean Water

In partnership with

Homeward Bound Program

We are proud to announce our newest initiative; our commitment to the Woodgreen Community Services for their "Homeward Bound" program.

We will be donating water filtration systems for each of the 42 apartments being developed at 270 Donlands Ave, Toronto. Each kitchen sink will be installed with a PBS-400 system direct plumbed into the main faucet, by our esteemed installation partners at Under Pressure Plumbing.

About Homeward Bound

Q How can a single, homeless mother become self-sufficient, with good income to support herself and her children?

A solution: Homeward Bound is a holistic, 4-year job-readiness program that brings together the key supports to help under-housed or homeless single mothers earn college diplomas, start careers, and achieve economic self-sufficiency for themselves and their children.

From developing the abilities of children and youth and strengthening families, to empowering people through training and job placement to achieve independence and self-sufficiency, Homeward Bound provides key funding, training, and support, all while providing quality, safe and affordable housing for single mothers and their children.
