## NATIONAL WATERCARE MAINTENANCE PROGRAM

### LET US TAKE CARE OF YOU!

Danacare is a unique service program to ensure ongoing maintenance on your water filtration equipment. It provides peace of mind that your investment in watercare will be looked after so that you can look after your customers. One direct toll free number to call; total accountability and transparency.

### ONE PRICE, NO SURPRISES

One bundled price includes one complete filter change, labour and travel time, coast to coast. We have many flexible billing plans to help you manage your budget. Whether you have 5 or 500 restaurants, we can scale to suit you.

### ONE SHOE DOESN'T FIT ALL

Filter maintenance is based on 'site-specific' needs. Water filter life depends on local water quality, inlet water pressure and water volume, and this is unique to each location. We tailor the maintenance scheduling to suit these individual variables. These schedules can be as static or dynamic as you need them to be.
