

NEW from Everpure - EF Series Drinking Water Systems Models EF1500 – EF3000 – EF6000

Why Everpure?

- ✦ Trusted name in water filtration since 1933
- ✦ Third party certification by NSF and the USEPA
- ✦ Market leader in foodservice filtration – enjoy that same commercial grade quality in your home

Why EF-Series?

- ✦ Three capacities to choose from to fit EVERYWHERE in the home
- ✦ Compact design is ideal where space is limited (for storing bottles)
- ✦ Environmentally responsible alternative to packaged water
- ✦ No need for a dedicated faucet – a full 2.2 gallons per minute flow rate
- ✦ Easy to install and easy to change out the filter cartridge; like changing a light bulb
- ✦ Upgrade in seconds for higher capacity (1500, 3000 and 6000 gallons)

Applications:

- ✦ Kitchen and bathroom faucet
- ✦ Wet bar
- ✦ Prep sink
- ✦ Ice maker
- ✦ Coffee Maker
- ✦ Pot filler
- ✦ Outdoor kitchen

Product Highlights:

- ✦ Reduces lead, chlorine taste & odor, cloudiness, mold, algae, and particulates (oxidized iron, manganese, and sulfides)
- ✦ NSF/ANSI Standard 53 certified to reduce cysts such as Cryptosporidium and Giardia
- ✦ Reduces particles as small as 0.5 micron in size
- ✦ Retains vital minerals found naturally in water to ensure the health and delicious taste of your water
- ✦ Helps prevent lime and scale build-up in water-using appliances

Unlimited great tasting water at your fingertips...
