Iceberg Undersink Water Cooler

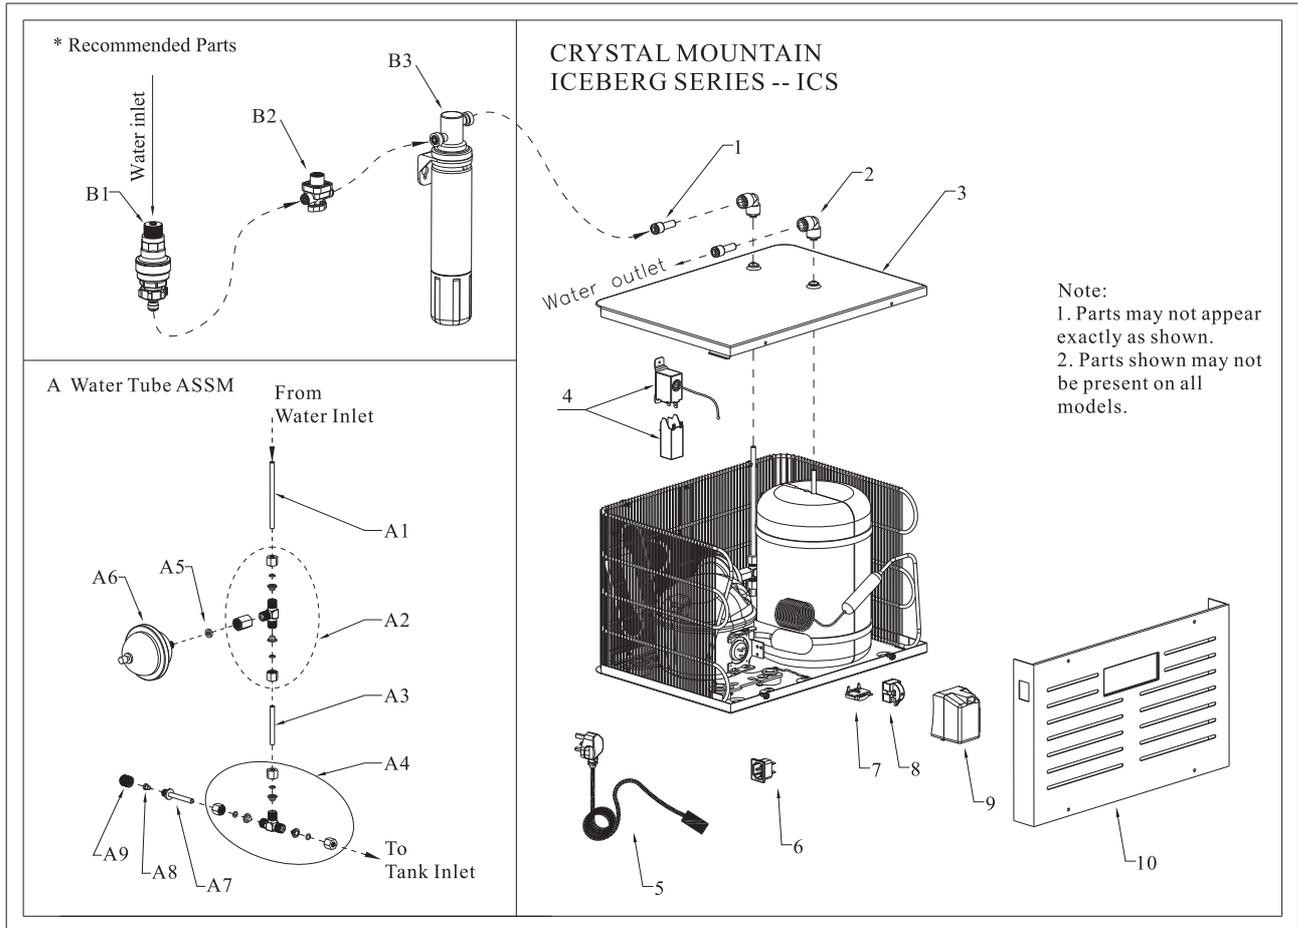

The Iceberg under sink water dispenser is available as a Cold Only Chiller. Created especially to accommodate small spaces conventional dispensers are too large for. Measuring only 12" x 16" x 12", the Iceberg's compact design will easily fit under most sinks. An impressive output capacity of 3 gallons per hour, the compressor driven chiller provides exceptional cooling performance. Simply connect the Iceberg to a countertop mounted faucet for cold water on demand.

Model: Iceberg 100-115VAC
